# Storebrand Global Plus A SEK - Monthly Factsheet October 2026

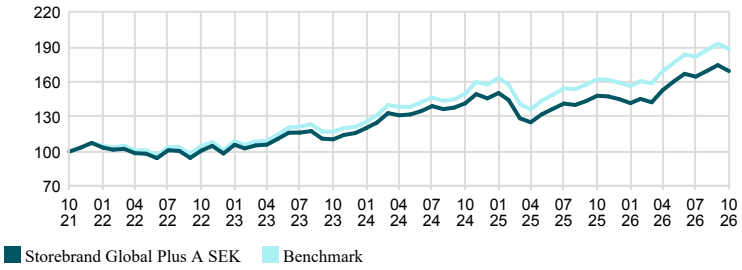

Storebrand Global Plus is a sustainable, index-oriented global equity fund that invests in a wide range of shares in different sectors in the global stock markets. The fund's performance is compared with an index that reflects the global stock market. The fund actively selects companies with a low CO2 footprint and companies with high sustainability ratings. Up to 10 per cent of the fund's assets are invested in solution companies, i.e. companies that are helping contribute to achieving the UN's global sustainable development goals. These companies are not necessarily in the fund's benchmark index. The fund follows our standard for sustainable investments, which means, among other things, that we refrain from investing in companies that are in breach of international standards and conventions. These include human rights, labour law and international law, corruption and financial crime, serious climate and environmental damage, and controversial weapons (land mines, cluster bombs and nuclear weapons). We also exclude companies where more than 5 per cent of net sales come from the production and/or distribution of fossil fuels, tobacco, weapons, alcohol, gambling, pornography, cannabis, or companies with large fossil reserves.
